

To Whom It May Concern:

I would like to lodge a complaint about The Point which features Mark Hyman. I receive this presentation over WEARTV in Pensacola, Florida.

Mr. Hyman appears during the local news program. He uses the opportunity to assinate the character of people who have no opportunity to speak in their own defense.

Although Mr. Hyman offers viewers a site to send comments, the comments from the public are not posted. Therefore, his veiwpoint goes unchallenged.

Mr. Hyman is fostering a climate of hatred against anyone who does not agree with his opinion. I understand the news media at WEARTV are required to show The Point during a local news segment with no editorial comment.

This type program does not promote unity of our country. Nor does it fall under factual information which you expect from the local news program.

I would like to know the position of the FCC regarding this program. Thank you for your time.
